

COMMUNITY ALTERNATIVES HOUSING CO-OPERATIVE

PET POLICY

Purpose of the policy

To clarify the rights and responsibilities of members wanting to bring pets to the co-op.

Policy

All pets must be approved by the pod, then at the business meeting, before they can reside in the community.

Pet owners are responsible for all care and expenses for their animals.

When owners vacate the pod they steam clean premises at their own expense, and fumigate if there are fleas.

Pet feces on our property will be promptly picked up and disposed of by the owner(s).

Pets in common areas

Pets are not allowed in indoor common spaces. Pets may be allowed in guest areas with community approval. I.e. pets of guests staying in the guest rooms need community approval.
